

Rugged SOHO Server Rack Cabinet *RCSC Series*

Rugged, compact knock-down cabinet for SOHO, small IT rooms, homelabs, and distributed network equipment.

Key Features and Benefits

- 16-gauge steel construction with a 1,500 lb load capacity provides rugged support for server, network, AV, and IT equipment.
- Available in compact 12U and 24U configurations with a 24" wide × 36" deep footprint for small offices, IT rooms, homelabs, and space-constrained installations.
- Knock-down construction ships unassembled for easier transportation through doorways, stairs, and constrained installation areas.
- Two pairs of infinitely adjustable 14-gauge EIA-310 square-hole mounting rails accommodate standard 19-inch rack equipment and include starter mounting hardware.
- Stackable design allows up to three 12U cabinets or two 24U cabinets to be securely combined using the optional baying kit.
- Optional solid, vented, and vented-window doors provide equipment protection with airflow options to suit the application.
- Rear gland plate and cable-entry knockouts support organized power and network cable routing.
- Grounding provisions and optional casters or leveling feet support secure and flexible installation.
- Black powder coat finish meets GREENGUARD, TSCA, and RoHS requirements.

The RCSC Series is a rugged, compact server rack cabinet designed for SOHO, small IT rooms, homelabs, AV systems, and distributed network equipment. Available in 12U and 24U configurations, its 16-gauge steel construction provides a 1,500 lb load capacity in a compact 24-inch-wide footprint. The knock-down design simplifies transportation into space-constrained locations, while adjustable square-hole mounting rails, optional doors, cable-entry provisions, and a unique stacking capability provide flexibility for small infrastructure installations.

When another product may be a better choice

- When you need a modular cabinet system for scalable configurations with threaded rails, consider our **RCK** Series.
- When you need a cost-effective assembled cabinet available in 24U, consider our **RB-DC** Series.
- When you need a 24U cabinet for rapid deployment in data center environments, consider our **C4RR_A** Series.
- When you need a multi-tenant cabinet with segmented access for shared environments, consider our **CLC** Series.

Accessories

- Universal Rack Shelf Fixed Steel (Up to 200 lb Capacity)
- Locking Rack Storage Drawer
- Sliding Keyboard Shelf 19 Inch Rack Keyboard Drawer
- We Manufacture PDUs and Outlet Strips
- Adjustable Depth Cable Manager Front to Rear Rack Cable Support
- Horizontal Cable Management Bar Steel Cable Support Bar
- Rack and Cabinet Caster Set
- Leveling Feet
- Ground Stud Kit
- Adjustable Server Rack Shelf 550 lb Capacity 4-Post Rack Shelf
- Sliding Adjustable Depth Steel Rack Shelf
- Rack Mounting Hardware Kit for Square Hole Rails
- Rack Unit Label Kit Adhesive Rack Rail Numbering Labels
- Horizontal Finger Cable Manager with Cover
- Rack Panels for Rack Optimization
- Bonding and Grounding
- Rack Cabinet Cooling Fan Kits
- Rack Shelf Slide Block Sliding Shelf Retention Bracket

Where the series works best

- Small office / home office (SOHO) environments
- Small IT and server rooms
- Homelabs and development environments
- Network and communications rooms
- AV and media systems
- Retail and branch locations
- Security and surveillance systems
- Space-constrained equipment installations

Applications and when to use the series

- Small servers and NAS systems
- Network switches, routers, and patch panels
- UPS and power distribution equipment
- AV and media equipment
- Security and surveillance infrastructure
- Home and small-business network equipment
- Equipment requiring greater protection than an open-frame rack
