

FOR IMMEDIATE RELEASE

Hammond Manufacturing Expands Western Canada Presence with New Calgary Distribution Centre

Calgary, AB - April 13, 2026 - Hammond Manufacturing, a leading North American manufacturer of electrical enclosures, is pleased to announce the opening of its new Western Canada Regional Distribution Centre in Calgary, Alberta.

This new 55,000 square-foot facility represents a significant investment in Hammond's commitment to service excellence, product availability, and reliable lead times across Western Canada.

Located at 5353 72 Ave SE, Unit 49, Calgary, AB, the facility will now serve as the primary distribution hub for our electrical enclosure customers in British Columbia, Alberta, and Saskatchewan, enabling faster delivery and improved support for regional partners.

"We are thrilled to expand our presence in Western Canada with the opening of our Calgary distribution centre. For our customers in Western Canada, this means faster access to the enclosures they rely on, and increased support for end-users alike."

- Sarah Hansen, Western Regional Sales Manager, Hammond Manufacturing

Improving Lead Times and Project Reliability

With the addition of the Calgary distribution centre, delivery times will be significantly reduced in the region, helping distributors and contractors keep projects on schedule. This expansion reinforces Hammond's focus on:

- Consistent product availability
- Reduced lead times
- Reliable supply for time-sensitive deployments

About Hammond Manufacturing

Hammond Manufacturing is a leading supplier of electrical enclosures, rack mounting solutions and electronic cases. The company's 100-plus years of success have been built upon an ongoing commitment to quality products and service excellence.
