

Rack Mount Keyboard & Equipment Shelf *RKBM Series*

Dual-purpose rack shelf with an ergonomic keyboard tray and rear equipment platform for efficient equipment configuration and maintenance.

Key Features and Benefits

- Heavy-duty 14-gauge steel construction supports up to 100 lb (45 kg), providing a durable platform for keyboards, monitors, laptops, test equipment, and other non-rackmount devices.
- Combines an ergonomic keyboard tray with a 15-inch deep rear equipment shelf, allowing technicians to comfortably operate equipment while supporting monitors, laptops, or diagnostic instruments on the rear platform.
- Occupies only 2U (3.47 inches) of rack space, maximizing workspace without sacrificing valuable rack capacity.
- Available in 19-inch and 23-inch rack widths for compatibility with standard EIA rack systems.
- Integrated rear retaining lip helps prevent equipment from accidentally sliding off the back of the shelf during installation, servicing, or everyday use.
- Creates a convenient local workstation for configuring switches, programming controllers, monitoring servers, or performing maintenance directly at the rack.
- Simple fixed design provides excellent rigidity with no moving parts, making it ideal for demanding industrial, telecommunications, and IT environments.
- Manufactured in North America, ensuring consistent quality, materials, and production standards.
- TAA-compliant, manufactured in North America within an ISO 9001 certified facility.
- Black powder coat finish (GREENGUARD Gold Certified, TSCA, and RoHS compliant) provides a durable, environmentally responsible finish.

The RKBM Series Rack Mount Keyboard & Equipment Shelf combines an ergonomic keyboard tray with a rear equipment shelf to create a practical workstation directly within your rack. The rear platform supports monitors, laptops, test equipment, and other devices, while the angled keyboard tray provides a comfortable typing position for equipment configuration, diagnostics, and maintenance.

Constructed from heavy-duty 14-gauge steel with a 100 lb load capacity, the RKBM mounts in just 2U of rack space and is available in both 19-inch and 23-inch widths. Manufactured in North America, it is an ideal solution for telecommunications rooms, industrial control systems, server rooms, and any installation where technicians need a dedicated workspace without the complexity of sliding shelves or separate accessories.
