

Square Hole Rack Rail Shelf Adapter *CPRSA Series*

Adapter kit that allows compatible Hammond fixed shelves to mount securely to CPR square-hole rack rails.

Key Features and Benefits

- Heavy-duty 14-gauge steel construction provides a secure mounting interface between compatible Hammond fixed shelves and CPR Series square-hole mounting rails.
- Allows fixed shelves designed for threaded rails to be installed on CPR Series square-hole rails, eliminating the need to change shelves when upgrading cabinet rails.
- Compatible with Hammond **RFVS**, **RFUS**, **RZVS**, and **RASC** shelf series.
- Simple bolt-on design installs quickly using the included mounting hardware.
- Sold as a set of four adapters, providing everything required for one compatible shelf installation.
- Finished in a durable smooth black powder coat for long-lasting corrosion resistance.
- Manufactured in North America for dependable quality and availability.
- TAA-compliant, manufactured in North America within an ISO 9001 certified facility.
- RoHS compliant.

The CPRSA Series Square Hole Rack Rail Shelf Adapter allows compatible Hammond fixed shelves to be mounted directly to CPR Series square-hole rack rails. Rather than replacing existing shelves when converting from threaded rails to square-hole rails, the CPRSA provides a simple adapter that preserves compatibility and simplifies cabinet upgrades.

Manufactured from heavy-duty 14-gauge steel, each kit includes four adapters and the required mounting hardware for quick installation. Designed specifically for Hammond RFVS, RFUS, RZVS, and RASC shelf series, the CPRSA is an easy solution for customers standardizing on square-hole rack systems while continuing to use proven Hammond shelving.
