ANTENNA ACCESSORY

Inseego's 5G/LTE dipole antenna

High performance 5G antenna for any indoor environment

Why Inseego?

As a U.S.-based company, we design and develop all of our products in the USA and hold them to the highest security standards. Our products and solutions are designed to meet the most rigorous security requirements of top tier carriers, government entities, and fortune 500 enterprise customers.

Inseego 5G dipole antennas provide the best possible coverage from a direct-mount antenna. With built-in isolation and an omni-directional pattern, these antennas are ground plane independent (no ground plane required; monopole antennas require a large external ground plane), and provide good coverage in any environment. World class RF design allows each antenna to have the best possible gain, efficiency, and return loss in an ideal form factor. With high band coverage, this antenna is optimized to cover CBRS, LAA, and all other LTE and 5G bands from 3.3 to 6 GHz.

Dipole antenna specifications

Antenna type

3.3-6 GHz dipole omnidirectional whip antenna, ground plane independent

Connector Type

SMA (M)

Antenna dimensions

8.2 x 1.5 x 0.6 in (207 x 38 x 15 mm)

Antenna weight

2 oz (57 g)

Operating temperatures

-40°C to 85°C

Environment

Indoor

Polorization

Linear

Max inpout power

5 W

SKU

649496 02581 6

Frequency range

3300 – 5000 MHz, 5150 – 5925 MHz

Band coverage

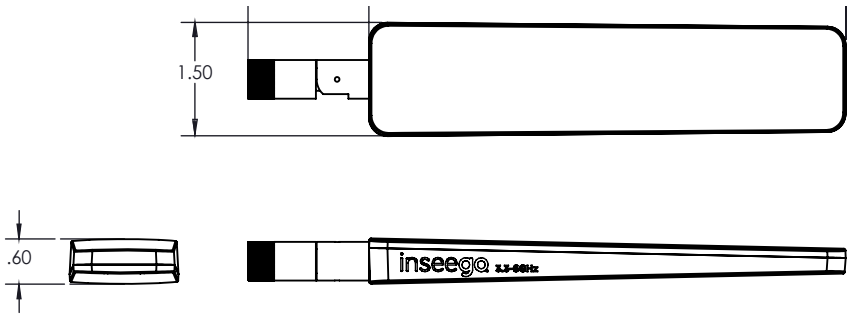

All LTE and 5G Sub6 bands from 1.4-6 GHz

Bands

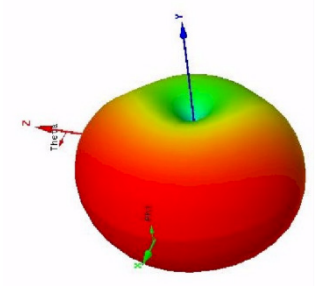

42, 43, 46, 48, 77, 78, 79

Radiant efficiency	3300 – 5000 MHz 5150 – 5925 MHz	%	80 80
Peak gain	3300 – 5000 MHz 5150 – 5925 MHz	dBi	5 5
Return loss (50 Ω)	3300 – 5000 MHz 5150 – 5925 MHz	dB	10 10
