

Mimo MystReserve Fact Sheet

Room Scheduling Without Platform Lock-In

Product Overview

Mimo MystReserve is a platform-agnostic room scheduling solution that combines intuitive room scheduling software with Mimo's Adapt LED tablet platform. Designed for modern workplaces, campuses, healthcare facilities, and other shared environments, MystReserve simplifies room scheduling while improving room visibility, utilization, and collaboration.

Key Differentiator: Your Calendar. Any Room.

Unlike room scheduling solutions tied to a specific ecosystem, MystReserve works seamlessly with any calendar platform including Microsoft 365, Google Workspace, Zoom, and others. ***MystReserve starts with the calendar, not the platform.***

Key Benefits

- Calendar-agnostic scheduling
- Real-time room availability
- Instant room booking at the door
- Configurable LED room status indicators
- Commercial-grade hardware designed for 24/7 operation
- Fast deployment and easy management
- Complete hardware and software solution

Built on Mimo Adapt LED Tablets

The integrated LED system provides at-a-glance room status visibility from a distance, helping users quickly identify available spaces and reducing meeting delays. MystReserve is powered by Mimo's Adapt LED tablet platform, featuring:

- Programmable LED status indicators
- Advanced mounting architecture
- Commercial-grade reliability
- Flexible installation options
- Sleek, low-profile design

Deployment options include wall-mounted or angled installation. Mimo MystReserve is designed for 24/7 commercial use.

Ideal Applications

- Corporate offices
- Conference rooms
- Huddle spaces
- Higher education campuses
- Healthcare facilities
- Shared workspaces
- Government environments

Why MystReserve?

Many organizations have delayed room scheduling upgrades due to platform complexity and fragmented technology stacks. MystReserve removes those barriers by delivering a simple, flexible solution that works with the tools organizations already use. The result:

- Fewer meeting delays
- Improved room utilization
- Reduced scheduling confusion
- Better collaboration experiences
