SEAMLESS CONNECT

Universal dvLED Mounting System

The Peerless-AV® SEAMLESS Connect Universal dvLED Mounting System offers a sleek, flexible design for even greater installation accuracy and time savings. The LEDUNV provides an affordable solution with a patent-pending universal spacer that ensures compatibility with most latching dvLED displays. The ADA-compliant mount frame allows for X, Y, and Z axis adjustments to accommodate uneven walls and ensure a flat video wall. Its lightweight aluminum frame installs quickly, and the quick-connect clamps make securing the displays to the mount frame simple for installers. The compact packaging minimizes warehouse space requirements and typically allows for parcel shipping, reducing delivery costs. Designed for flexibility, this mounting system ensures a secure, precise, and professional display setup for any environment – From corporate lobbies, shopping centers, sports venues, concert halls, casinos, and more.

- Engineered for versatility, accommodating both corner and flat-to-wall installations
- Scalable design enables unlimited sizes and configurations
- Wall plate includes 0.5" (13mm) height adjustment to enable quick spacing corrections
- Additional 0.2" (6mm) clamp height micro-adjustment delivers perfect pixel positioning
- Optional trim kit accessory (LEDTK) offers compatibility with most displays
- When mounting to a wall is not an option, Peerless-AV® also offers a flexible range of SEAMLESS Connect Universal Substructures
- Compact packaging minimizes environmental impact, shipping costs, and storage space

LEDUNV6 and LEDUNV12 combined to create this 5X5 configuration

**Universal spacer (LEDUNVSPACER3) is sold separately.*
