Escutcheon Rings

FOR SUSPENDED CEILING INSTALLATIONS

Peerless-AV® Escutcheon Rings provide a clean, professional finish to suspended ceiling installations by covering the hole where an extension column passes through a ceiling tile. Each ring is hinged to open, wraps around the extension column, and snaps into place — no tools required. Two models are available to match your column size: the ACC002 for 2" schedule 40 columns in a polished chrome finish, and the ACC640 series for 1-1/2" schedule 40 columns, available in chrome (ACC640), black (ACC640-B), and white (ACC640-W) to match any ceiling aesthetic.

- Visually enhances suspended ceiling installations with a polished, finished look
- Hinged ring opens to wrap around the extension column and snaps into place — no tools required
- Covers the hole where the extension column passes through the ceiling tile
- ACC640(-B)(-W) hinged ring wraps around 1-1/2" (38mm) schedule 40 extension column
Not needed with CMJ453 or CMJ450
- ACC002 hinged ring wraps around 2" (51mm) schedule 40 extension column

■ SIMPLE INSTALLATION
Hinge opens to quickly snap into place
