

Connectivity Beyond Boundaries with Fast 5G

5G CPE02

Powered by high-performance 5G networks, the CPE02 empowers diverse industries to rapidly deploy flexible, secure, and intelligent wireless connectivity.

Challenges faced by traditional networks

Cumbersome wiring
and coverage gaps

Prohibitive
upgrade costs

4G throttling
under heavy usage

Blind spots
in network control

| **High-Speed
5G**

| **High-Performance
Wi-Fi 6**

| **Advanced
Networking**

| **Enterprise-Grade
Security**

| **Cloud-Managed
Network**

| **Multi-Scenario
Ready**

No Queues, No Delays: 5G-Driven Retail Just Works

High bandwidth, low latency – unlock smart acceleration for retail stores

- **Ultra-Fast 5G**
Qualcomm X62 chip delivers 5G speeds up to 3.4 Gbps
- **Universal Connectivity**
5G NSA/SA and 4G compatibility
- **Nationwide Reach**
Connect seamlessly across major 5G carriers

5G + Wired Broadband: Dual-Link Assurance

5G failover for mission-critical operations, like POS, VoIP, etc.

- **Also support wired WAN connectivity**
- **Flexible WAN/LAN Port Switching**
with VLAN & Policy Routing
- **Multi-WAN Backup/Load Balancing**
optimizes bandwidth usage and enhances stability.

Shared Connectivity: Empower Your Digital Workspace

Seamless cloud access for phones, tablets & PCs. Drive efficient collaboration

- **Wi-Fi 6 | 4x4 MIMO**
- **Dual-Band | Up to 5400 Mbps**
- **128-Device Capacity | Engineered for high-density environment**

Multi-Layer Security: Safeguard Business Growth

Enterprise-grade mechanisms ensure a trusted, controllable network.

- **VPN**
IPSec, L2TP, and Open VPN for encrypted data transit
- **Built-in Firewall**
Stateful inspection firewall and DDoS defense
- **Precision Control**
Port forwarding, URL filtering, ACLs, MAC filtering

Cloud Visibility for Smarter Network Management

Gain instant insight into your distributed networks via InCloud Manager

- **Unified Monitoring**
View status, data usage, and link quality on a single screen
- **Secure Remote Management**
Connect to field devices from anywhere for upgrading and troubleshooting
- **Mobile-First Control**
Deploy and manage networks effortlessly through the mobile app.

Shape Your Space: Mount Smart, Connect Seamlessly

Engineered for wall and desk mounting — seamlessly integrates into stores, offices, and industrial spaces.

Accessible and Affordable — 5G for Everyone

- Leveraging high-speed 5G, it delivers **stable wireless connectivity**—no fiber cabling required.
- **Simply plug and play** to instantly bring unprecedented connectivity to rural and suburban areas.

Multi-Environment Ready
