IP67 For Harsh Environments

InHand Networks
www.inhandnetworks.com

Boost your enterprise network with the 5G ODU2000 series and InCloud Manager SaaS service. Enjoy a high-speed, secure, and convenient 5G network and stay competitive in the digital age.

Advantages

Unleash the Power of 5G

- 5G network, DL: 4.76Gbps, UL: 1.25Gbps
- SA & NSA networking
- 5G Sub-6 GHz
- Compatible with LTE CAT19

Purposely Built for Outdoors

- IP67 protection rating
- -30~70°C operating temperature
- Wall/pole mounting with flexible angles
- High-precision GPS location tracking

Agile and Powerful Network

- Throughput up to 2Gbps
- 2*2.5Gbps Ethernet port
- WAN/LAN or dual LAN
- PoE

Zero Touch Deployment

- Plug & play
- Fast Wi-Fi connection
- Configuration via App
- Cloud configuration & management

Worry-free Connectivity

- Wired/cellular failover
- Dual NANO SIM
- Available with eSIM
- Multi-layer link detection, self recovery

Efficiently Managed in the Cloud

- Unified management access platform
- Simple and intuitive graphical data
- Easy-to-use management interface
- Overview of business

Applications

5G + Chain Stores

5G ODU provides convenient network access for chain convenience stores, enabling efficient handling of critical transactional data and supporting rapid business expansion.

5G + Business Internet

5G ODU offers easy access to 5G networks and cellular link failover services for small enterprise branch offices, improving network flexibility and reliability. Combined with the InCloud Manager, it delivers efficient network management.

5G + SMB

5G ODU delivers agile network services to small businesses with on-demand access to 5G networks, freeing them from broadband limitations.
