

Linea Pro™ Rugged Pistol Grip Flex Case

Quick Start Guide

For LPR and iOS® 12 | 13 | 14

Assemble LPR & iPhone With Flex Case

The flex case integrates iPhone 12, 13, or 14 with the Linea Pro Rugged (LPR) pistol grip for customer facing operations.

1. Align the LPR charging port with the pistol grip flex case opening, and then insert the LPR into the flex case until it is completely seated by applying pressure. This secures the LPR within the case. Ensure that the LPR camera openings and buttons align with the corresponding openings and buttons on the flex case.

2. Align the guide rails of the pistol grip to the guide slots of the flex case and fully seat the pistol grip to the flex case.

3. Once the pistol grip is fully seated, a security screw can be used to lock the pistol grip to the flex case assembly.
